

REMARKS

Claims 1-41 are currently pending. Claims 1, 11, and 13 are currently amended. Claims 2-10, 12, and 14-41 are original. Claims 42-44 were previously cancelled.

The Examiner objected to claim 11 because of an informality. Appropriate correction has been taken by adding the word “receiver” to the amended claim per the Examiner’s suggestion of which Applicant is thankful to receive.

The Examiner rejected claims 2 and 13 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the Examiner rejected claim 2 as there was no antecedent basis for the word “wireless” in the phrase “wireless hub.” Original claim 1 claimed a “hub” and not a wireless hub. Also, the Examiner rejected claim 13 as it recited the limitation “control signal” in claim 9. However, that limitation is claimed in claim 10. Appropriate correction has been taken in claim 13.

Applicant has amended claim 1 to specify that the hub for receiving the signals is a “wireless hub.” Evidence of such a wireless hub can be found in numerous locations in the specification including on pages 8, 12, 14 and 15.

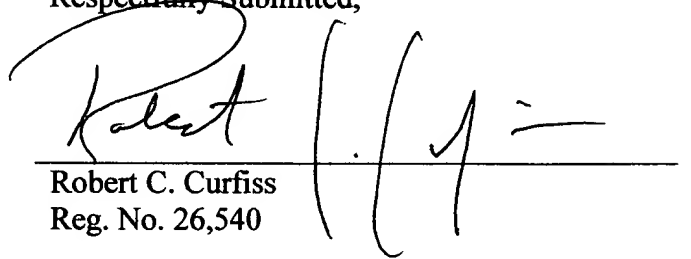

Courtney (6,385,772) does not describe or suggest the use of a wireless hub. As such, Applicant believes claim 1 is in condition for allowance and respectfully requests it be passed to allowance.

Since claim 1 has been amended to add the “wireless hub” limitation, the 35 U.S.C. 112 rejection of claim 2 is respectfully requested to be obviated.

Since claims 2-41 depend on amended claim 1 which Applicant believes is in condition for allowance, Applicant believes claims 2-41 are in condition for allowance and respectfully requests they be passed to allowance.

If the Examiner has any other matters which pertain to this Application, the Examiner is encouraged to contact the undersigned to resolve these matters by Examiner's Amendment where possible.

Respectfully Submitted,

Robert C. Curfiss
